

# Here, There and Everywhere

Emmylou Harris

Here making each day of the year

Changing my life with one wave of his hand

Nobody can deny that there's something thereRunning my hands through his hair

Both of us thinking how good it can be

Someone is speaking but he doesn't know she's thereI want him everywhere and if he's beside me

I know I need never care

But to love him is to meet him everywhereKnowing that love is to share

Each one believing that love never dies

Watching his eyes and hoping I'm always there

To be there and everywhere, here, there and everywhereI want him everywhere and if he's beside me

I know I need never care

Oh, but to love him is to meet him everywhereKnowing that love is to share

Each one believing that love never dies

Watching his eyes, hoping I'm always there

To be there and everywhere, here, there and everywhere
