

# Somethin' to Drink About

[William Michael Morgan](#)

Maybe it's the sound of a whistle blowin' on a nine to five  
Or your girl waitin' in the drive, for a neon Friday night  
Maybe it's your friends in a headlight circle in an empty field  
Got all night at the wheel, go on and break us in  
There's always, somethin' to drink about, a reason to raise 'em  
up  
This is why you pop a top and pour it in an empty cup  
Somethin' to celebrate and get a little loud  
Aw, it's just somethin', somethin', somethin' to drink about  
Maybe it's a game with two minutes left and three  
points down  
All you hear is the roar of the crowd, and you're winnin' on an end around  
Maybe it's a day with the weekend shinin' down on the dock  
Aw, the girls are hot, but the beer is not  
That sounds like  
There's always, somethin' to drink about, a reason to  
raise 'em up  
This is why you pop a top and pour it in an empty cup  
Somethin' to celebrate and get a little loud  
Aw, it's just somethin', somethin', somethin' to drink about  
Maybe it's a buddy's birthday  
Maybe it's another spring break  
All you need is a tub of ice and a pony keg  
And you've got  
Somethin' to drink about  
This is why you pop a top and pour it in an empty cup  
Somethin' to celebrate and get a little loud  
Aw, it's just somethin', somethin', somethin' to drink about  
Aw, somethin' to drink about  
Somethin' to drink about
