Help Me Fall

Mark Wills

I've been trying not to love you
I've been putting up a fight
I've been barely holding on
Letting go with all my might

There's a part of me that's empty
I know only love can fill
I'm afraid I'll never find it
And scared to death I will

Help me fall, help me fall
If you care for me at all
Help me fall, help me fall

I've been holding conversations
When I havent said a word
I've been speaking with my silence
and praying that you heard

I'm a walking contradiction
I'd hate to be my heart
It keeps trying not to love you
But it don't know where to start

Help me fall, help me fall
If you care for me at all
Help me fall, help me fall

I gotta learn to retrust
To turn me into us
And I really dont know if I can
Again

Help me fall, help me fall
If you care for me at all
Help me fall, help me fall

I've been trying not to love you
I've been putting up a fight
I've been barely holding on

Letting go with all my might...
