Magic Man

Robin Thicke Feat T.I.

Y-Yeah Yeah Yeah
Oh baby...Oh baby
I can be the one that can give you what you need
I can show you things that you thought you'd never see
I can make that candy rain fall like a storm
I can take that ice cold heart and turn it warm
I can make your pain disappear
With just one touch
Cuz I can do magic, magic
I can make your body shiver
With just one touch
Cuz I can do magic, magic
[So let me be your magic man]Let me be your magic man
Your magic man, Your magic man
Your magic man, Your magic man
Your magic man, Your magic man
Let me be your magic man
Your magic man, Your magic man
Your magic man, Your magic man
Your magic man, Your magic man
Let me be your
Baby girl I know you don't really trust me
But how much you wanna bet
I could really make you scream
If you let me kiss your heart
I could set your heart free
[Set your heart free]So girl let down your guard
And let me put your mind at ease
Cuz I can make your pain disappear
With just one touch [Just one touch]
Cuz I can do magic, magic
[I can do magic girl]I can make your body shiver
With just one touch
[Make you say oh-ooh]Cuz I can do magic, magic
[Let me be your magic man]
Let me be your magic man
Your magic man, Your magic man
Your magic man, Your magic man
Your magic man, Your magic man

Let me be your
Your magic man, Your magic man
Your magic man, Your magic man
Your magic man, Your magic man
So let me be your
Let me be your, Your magic man
Your magic man, baby
Your magic man, Your magic man
See baby I don't want you to think
That Im just tryna get into you
See I just want you to seat back
And relax and let me show you just what I do
See Ima show you magic
Ima pull a rabbit, Out the hat
And shawty Ima show you who the baddest
Ima let you have it
Ima make your heart say daddy
Ima be your magic man
Let me be your magic man
Your magic man, Your magic man
Your magic man, Your magic man
Your magic man, Your magic man
[Ima be your magic man]Let me be your magic man
Your magic man, Your magic man
Your magic man, Your magic man
Your magic man, Your magic man
Your magic man
Let me be your...
Your magic man, Your magic man
Let me be your [Let me be your]
Your magic man
Let me be your [Let me be your]
Your magic man, Your magic man
Let me be your [Let me be your]
Your magic man...
