

# Go Baby (feat. GemStones)

## Lupe Fiasco

Where my ladies at  
I say where my ladies at  
Let's find somewhere we can go crazy at  
And for you baby I'll be your maniac  
Hey hey hey hey  
And you don't have to worry about nothing  
Cause every time I see you, baby you'll be rolling with me  
I'll be on the side lines  
Rootin' for my dime  
Holdin' up my sign  
And it say Go baby woo woo, go baby woo woo There my lady at  
I say there my lady at  
That's my honey  
If I giver her money  
She don't have to pay me back  
No you don't gotta pay me back  
Hey hey hey hey  
And I'll forever give my love  
Cause when I'm down you always put a smile on me  
And when all my strengths up  
And I'm about to give up  
And I need a lift up  
I'll hear you say Go baby woo woo, go baby woo woo She loves me  
She loves me more  
A more means shes a shore  
She adores me  
Even when its up and down like sea-saw  
Surely we can start from like default  
When they say your not my baby like Maury  
You can tell em that they tellin' a story  
Testify like your tellin' a jury  
And I'll repeat like it you said it before me  
We undefeated like a veteran army  
We as heavy as an elephant aren't we  
Lets take em to a zoo or better yet a safari  
Women let me ding like the fella from Masai  
We go back like a set of Atari  
From baby fat to skeletons darlin'  
Me starin' you what it says in the marque

So lets go give em a show  
All my honkeys sayGo baby woo woo, go baby woo wooYour my sure fire, superstar, sure shy, firecracker  
Extravaganza, fantastic, super size, extra cheese  
You best believe  
Your my sure fire, superstar, sure shy, firecracker  
Extravaganza, fantastic, super size, extra cheese  
Yes indeedWhere my ladies at  
I say where my ladies at  
Let's find somewhere we can go crazy at  
And for you baby I'll be your maniac  
Hey hey hey hey  
And you don't have to worry about nothing  
Cause every time I see you, baby you'll be rolling with me  
I'll be on the side lines  
Rootin' for my dime  
Holdin' up my sign  
And it sayGo baby woo woo, go baby woo woo
