

# Backing Up

## The Elwins

I did what I had to do  
Felt bad, but I saw it through  
Told you I couldn't go anymore  
Now I sit behind a closed door I'm not sure of anything  
I'm not sure at all  
I can't tell just what I think  
I'm not sure at all Everything's backing up  
Frowning, rewind on the reel  
Everything's backing up  
Tryna stop a rolling wheel  
But I'm frozen, stuck in time  
and there ain't nothin I can do  
Everything's backing up  
Frowning, rewind on the reel Sinking fast like a fallen stone  
Diving deep from the place I've thrown  
Should I float? Or should I learn to swim?  
In the light, but it all seems dim I'm not sure of anything  
I'm not sure at all  
I can't tell just what I think  
I'm not sure at all Everything's backing up  
Frowning, rewind on the reel  
Everything's backing up  
Tryna stop a rolling wheel  
But I'm frozen, stuck in time  
and there ain't nothin I can do  
Everything's backing up  
Frowning, rewind on the reel Everything's backing up  
Up up up up up up  
Everything's backing up  
Up up up up up up Only time will tell  
If I made the right choice  
With decisions I voice  
Broken hearts will mend  
I think we'll both find love again  
But will I be with you in the end, the end? Everything's backing up  
Frowning, rewind on the reel  
Everything's backing up  
Tryna stop a rolling wheel  
But I'm frozen, stuck in time

and there ain't nothin I can do  
Everything's backing up  
Frowning, rewind on the reel Everything's backing up  
Frowning, rewind on the reel  
Everything's backing up  
Tryna stop a rolling wheel  
But I'm frozen, stuck in time  
and there ain't nothin I can do  
Everything's backing up  
Frowning, rewind on the reel Everything's backing up  
Up up up up up up  
Everything's backing up  
Up up up up up up I did what I had to do  
Felt bad, but I saw it through
