Step Ahead

Comeback Kid

(Back again)
Right where I started and I can't find anything
To take me out of your shallow waters
That I've been drowning in so long
(So long)
Who's here to take me out?Time to face another day
But will it be just like the last one
It's up to me to make the difference this time
I'll face another day
Won't will it be be just like the last
(No)You talk loud without words
I've had enough manipulation
You talk loud without words
I've had enough manipulationI found my way out
I'm not a slave to your game
I found my way out
I'm not a slave to your game
(I found my way out)
NoTaking back what's mine
Taking back what's mine
Taking back what's mine
Taking back what's mine
(I will take back)
