

Promise Me

Luther Vandross

I can only speak for
The things that I've been through
So when it comes to our love
I'll talk the whole night through About the lovin' I've been missin'
Lately, baby I ain't had no kissin'
Don't you love me
Can we stay together? Like when we used to be in love
But now you've got your head on another cloud
Girl, we had a good thing But now you've turned around
Don't you even care how this love
We've had turns out Promise me, you'll leave me never
That we'll be in love forever
Promise me, you'll leave me never
And that we'll be in love forever We can work at our love
And make it all brand-new
If we stay together
There's nothing we can't do Improve the lovin' is what I'm seeing
Let's do it, baby
Don't fight the feeling, won't you love me?
Can we stay together? Like when we used to be in love
But now you've got your head on another cloud
Girl, we had a good thing But now you've turned around
Don't you even care how this love
We've had turns out Promise me, you'll leave me never
That we'll be in love forever
Promise me, you'll leave me never
And that we'll be in love forever Forever, ever, promise me you'll leave me never
Won't you promise me?
(That you'll leave me never)
Promise me, forever and ever and ever Forever, ever, promise me you'll leave me never
Won't you promise me?
(That you'll leave me never)
Promise me, forever and ever and ever
