

# Miles Away

## Madonna

I just woke up from a fuzzy dream  
You never would believe the things that I have seen  
I looked in the mirror, and I saw your face  
You looked right through me; you were miles away

All my dreams, they fade away  
I'll never be the same  
If you could see me the way you see yourself  
I can't pretend to be someone else

You always love me more  
Miles away  
I hear it in your voice when you're  
Miles away  
You're not afraid to tell me  
Miles away  
I guess we're at our best when we're  
Miles away

So far away, so far away  
So far away, so far away  
So far away, so far away  
So far away, so far away

When no one's around, and I have you here  
I begin to see the picture, it becomes so clear  
You always have the biggest heart  
When we're six thousand miles apart

Too much of no sound  
Uncomfortable silence can be so loud  
Those three words are never enough  
When it's long distance love

You always love me more  
Miles away  
I hear it in your voice when you're  
Miles away  
You're not afraid to tell me  
Miles away

I guess we're at our best when we're  
Miles away

So far away, so far away  
So far away, so far away  
So far away, so far away  
So far away, so far away

I'm alright, don't be sorry, but it's true  
When I'm gone, you realize  
That I'm the best thing to happen to you

You always love me more  
Miles away  
I hear it in your voice when you're  
Miles away  
You're not afraid to tell me  
Miles away  
I guess we're at our best when we're  
Miles away

You always love me more  
Miles away  
I hear it in your voice when you're  
Miles away  
You're not afraid to tell me  
Miles away  
I guess we're at our best when we're  
Miles away

So far away, so far away  
So far away, so far away  
So far away, so far away  
So far away, so far away  
So far away, so far away  
So far away, so far away  
So far away, so far away  
So far away, so far away  
So far away, so far away  
So far away, so far away?
