The Glorious Nosebleed

Circa Survive

forced, we forced feeding you lines
feeding you
look how high I'm jumping from.
you'll never make it.I know what it feels like.
giving into something you don't understand.forced, we forced feeding you lines
feeding you.
look how high I'm jumping from.
you'll never make it.walk into the light.
giving in to something you don't understand.
this sort of thing gets you out of mind right before.
this sort of thing gets you out of mind right before impact.calcium waste, litter and falling like icicles.
calcium waste, litter and falling like icicles.guess who's next.
you're just as guilty as them.forced, we forced feeding you lines
look how high I'm jumping from.
you'll never make it.this sort of thing gets you out of mind right before.
this sort of thing gets you out of mind right before impact.
