

Everything

Taproot

Grown up an only child
One parent home
My style was spoiled and doubted
Not trusted, neglected by others around
You saved
You saved me
You were the only one
There for me, loved me
Dearly, treated and supported me
Right through the thick and the thin
You saved
You saved me
Look at me now
I hope you're proud
You're everything to me
Taught me to be myself
Showed independent help along through
Struggles made it work ourselves
Just a mother and child
You saved
You saved me
Look at me now
I hope you're proud
You're everything to me
Look at me now
I hope you're proud
You're everything to me
Look at me now
I hope you're proud
You're everything to me
You're everything
Everything
Everything
Thing
Thing
Thing
