

We Don't Want To Sing Along

Chumbawamba

Tap, tap, tap in the chat room
We're learning how to make a bomb
Well, whatever
We don't want to sing along

We don't want to sing along
We don't want to sing along
We know every word to the song
But we don't want to sing along

Oh, Marilyn she'll desert me
Tellin' me, I was wrong
She sold lipstick and instinct for money
For we don't want to sing along

We don't want to sing along
We don't want to sing along
We know every word to the song
But we don't want to sing along

Listen to the bullies singing
To prove that they all belong
You better watch your step bully
'Cause we don't want to sing along

We don't want to sing along
We don't want to sing along
We know every word to the song
But we don't want to sing along

We don't want to sing along
We don't want to sing along
We know every word to the song
But we don't want to sing along

We don't want to sing along
We don't want to sing along
We know every word to the song
But we don't want to sing along
