Impossible

MOTHXR

I want so much
So much
So love me in disguise
But now you're just somebody else
All the lies I tell myself
You're impossibleThere's so much in your blood
I'm here to help you let it out
I'll cut you up all night baby girl if I'm allowed
I'll use the same weaponry that you used on meImpossible
You're impossibleI know enough
Enough
How much more can I make?
Now I'm just somebody else
Feed the lions to myselfChorusI'll cut you up all night (repeat outro)
