Silent Tears

MWK

Don't know if you feel the same
so i'll keep my thoughts hidden
we both agreed to be friends
but emotions have risen
wish you would give a sign
that you know how i'm feeling
but until then
i'll cry silent tears
but until then
i'll cry silent tears
Don't wanna be in this world
living this life without you babe
don't wanna live on this earth
loving nobody else but you
Don't wanna be in this world
living this life without you babe
don't wanna live on this earth
loving nobody else but you

What we shared together was so real
I never felt anything like our essence
but if i can't have you
i'd rather be in your presence
crying these silent tears
(i'll cry silent tears)
crying these silent tears
Don't wanna be in this world
living this life without you babe
don't wanna live on this earth
loving nobody else but you
Don't wanna be in this world
living this life without you babe
don't wanna live on this earth
loving nobody else but you
cry cry silent tears [repeat 'til fade]
