

Guardians

Vallon

We're living in our units and one thing we can do is

Work for a life without a fate

We don't pay any taxes but the state is the axes

Of our minds without love without hateWe have a higher order, no one needs to be a hoarder

Our society is such a glorious thing

In our centers we can dream of, anything you never think of

You can't say we are puppets on a stringOur minds are kept so clean

Checked up on a screen

They're holy men, they're saints

Without them we might all failWe don't know war and crime, things of ancient times

Just see it if we put on video

The blue pass is for my life and the red one's for my wife

It's the only thing we really need to showThere are still some without rules but I tell you, they're all fools

The guardians will find them as we've seen

We got banks where we freeze them

They get new brains screwed in then

And act contrarily to what they have beenWith new minds made so clean

Checked up on a screen

They will be the saints

Without them we might all failGuardians of our lives, protect security

They turn the key and they step in

Controlling you and me

Guardians of our lives, take care eternallyGuardians of our lives, protect security

They turn the key and they step in

Controlling you and meGuardians of our lives, protect security

They turn the key and they step in

Controlling you and me

Guardians of our lives, take care eternallyPuppets on a string, puppets on a string

Puppets on a string, puppets on a string
