

I'm In No Condition

[Dolly Parton](#)

Don't look at me with love in your eyes
Go look at somebody that can make it worthwhile
I'm hurt from a love affair I didn't want in
An' I'm in no condition to try to love again
Don't smile at me because it's no use
'Cause I don't have a smile that I can give to you
Someday you might look me up but let me be till then
For I'm in no condition to try to love again
I'm in no condition to try to love again
Man I love just broke my heart and it must have time to mend
He gave me the breeze, now he's gone with the wind
An' I'm in no condition to try to love again
I'm in no condition to try to love again
Man I love just broke my heart and it must have time to mend
He gave me the breeze, now he's gone with the wind
An' I'm in no condition to try to love again
No, I'm in no condition to try to love again
