

# Bad Habits

[Michael Tolcher](#)

I get all my bad habits watchin' you, it's true  
Well, I wish that things were so different  
Change it myself, it's what I'll do But, I can't figure it out, yet  
Just how to make it perfect for you  
But, I'm closer than I was yesterday  
Yeah, I'm closer than I was yesterday They say that life is for learning  
Well, teach to me to live while I'm here  
Messages twisted and turning  
What should I give, make it clear 'Cause I can't figure it out, yet  
No, well I can't figure it out, yet  
Just how to make it perfect for you  
But, I'm closer than I was yesterday  
Yeah, I'm closer than I was yesterday Don't you know there's no difference? I'm not the same  
I'm only here to be with you  
And now I'm closing the distance, dropping the claim  
Trading the past for something new, something new Why would you work without living  
Spending your soul, what's it worth?  
Well, I hope you make it to heaven  
Waiting for life here on earth 'Cause I can't figure it out, yet  
No, well I can't figure it out, yet  
No, I can't figure it out, yet  
Just how to make it perfect for you But I'm closer than I was  
Closer than I was  
Yeah, I'm closer than I was yesterday  
Yeah, I'm closer than I was yesterday
