

Bad Habits

Michael Tolcher

I get all my bad habits watchin' you, it's true
Well, I wish that things were so different
Change it myself, it's what I'll do But, I can't figure it out, yet
Just how to make it perfect for you
But, I'm closer than I was yesterday
Yeah, I'm closer than I was yesterday They say that life is for learning
Well, teach to me to live while I'm here
Messages twisted and turning
What should I give, make it clear 'Cause I can't figure it out, yet
No, well I can't figure it out, yet
Just how to make it perfect for you
But, I'm closer than I was yesterday
Yeah, I'm closer than I was yesterday Don't you know there's no difference? I'm not the same
I'm only here to be with you
And now I'm closing the distance, dropping the claim
Trading the past for something new, something new Why would you work without living
Spending your soul, what's it worth?
Well, I hope you make it to heaven
Waiting for life here on earth 'Cause I can't figure it out, yet
No, well I can't figure it out, yet
No, I can't figure it out, yet
Just how to make it perfect for you But I'm closer than I was
Closer than I was
Yeah, I'm closer than I was yesterday
Yeah, I'm closer than I was yesterday
