

# Mouth

## Bush

You gave me this, made me give  
Your silver grin, still sticking it in  
You have soul machine, soul machine  
The longest kiss, peeling furniture days  
Drift madly to you, pollute my heart drain  
You have broken at me, broken me  
All your mental armor drags me down  
Nothing hurts like your mouth, mouth, mouth  
Your loaded smiles, pretty just desserts  
Wish it all for you, so much, it never hurts  
You have soul machine, stone at me  
All your mental armor drags me down  
We can't breathe when you come around  
All your mental armor drags me down  
Nothing hurts like your mouth, mouth, mouth  
Your mouth, mouth, mouth  
Your mouth, mouth, mouth  
We've been missing long before  
Never found our way home  
We've been missing long before  
Where we'll find our way  
You gave me this, made me give  
You have soul machine  
Broken free  
All your mental armor drags me down  
We can't breathe when you come around  
All your mental armor drags me down  
Nothing hurts like your mouth, mouth, mouth  
Your mouth, mouth, mouth  
Your mouth, mouth, mouth  
All your mental armor  
All your mental armor and your  
Mouth, mouth, mouth
