

# Gold

## Mando Diao

La, la, la Twilight in my eye  
Then I can see for seven million miles  
Twilight in my eye tonight The dreams become clear  
The fog gets thicker every time I inhale  
Stars look the same to me Oh my God, I went gold when I saw your smiling face  
I went gold when I went through this troubling maze  
I went gold and my people behind me all did the same Oh my God, I went gold when the ocean swallowed me  
I went gold and I felt that I was free  
I went gold and my people behind me all did the same Its a way to the heaven, dont try to feel too much  
Just let the morning dry your eye  
And I say la, la, la Let it all in  
Dont feel afraid of dying, just give in  
Let it all in tonight Oh my God, I went gold when I saw your smiling face  
I went gold when I went through this troubling maze  
I went gold and my people behind me all did the same Oh my God, I went gold when the ocean swallowed me  
I went gold and I felt that I was free  
I went gold and my people behind me all did the same Its a way to the heaven, dont try to feel too much  
Just let the morning dry your eye  
And I say la la, la la, la La, la, la Oh my God, I went gold when I saw your smiling face  
I went gold when I went through this troubling maze  
I went gold and my people behind me all did the same Oh my God, I went gold when the ocean swallowed me  
I went gold and I felt that I was free  
I went gold and my people behind me all did the same La, la, la
