The Juice Is Loose

Sicko

Do you read me
this is headquarters
and soon you'll be free
we got commandos on the way
so just sit tight, OJSitting around Sunday morning
thinking how lame it is
the Juice is stuck in jail
when he's obviously innocent
we've got choppers and uzis
and a hit new theme song
LA county jail can't be that strong
Choppers on the roof
and commandos down the hall
OJ's private jailers up against the wall
a laser to cut the bars
and hand the Juice a gun
stand back boys
and watch THE MAN run
