

Hit On the Head

Gomez

Hit on the head
And that's just who I am
I'm gonna be your man
I'm gonna be your man Hit on the head
That made me what I said
Can't they just free
Just you and me It was a hit on the head
That made me what I said
What you waiting for?
Ain't gonna be around no more Why don't you go
Or why don't you marry me?
Can't you see
Everything's gonna be? Hit on the floor
And I ain't carrying on
I'm gonna be gone
I'm gonna be gone It's written in the law
It's written in the law
It's written in the law
It's written in the law Written in the law
Written in the law
Written in the law
Written in the law
Written in the law
