

Earthshaker Rock (with Doro Pesch)

Warlock

Hey you, whatcha gonna do
Whatcha gonna do tonight?
Stand up and let it out
Metal rock is here tonight In the streets a wave of heat
Burning half the town
Finish the day in a rocking good way Out of hell and out of fire
The night is filled with dark desire
Metal sounds will take you higher
Listen to the beat all through the night When you get here
You will see the light
And sounds will heat up
The heat of the night Earthshaker rock
Come on feel earthshaker rock
Let me make you feel alright
State of shock, metal rock, guitar Higher, higher
Set your light on fire
You get higher
Bang your head, bang your head When you get here
You will see the light
And sounds will heat up
The heat of the night Earthshaker rock
Heat of the night
Earthshaker rock
Come on, I make you feel alright Earthshaker rock
Earthshaker rock
We must feel earthshaker rock
Come on make you feel alright
State of shock, metal rock Earthshaker rock
Earthshaker rock
You're on, you're on to metal rock
State of shock, metal rock
Earthshaker rock, metal rock
