

Absent Friends

Simon Peters

Song: Absent Friends

The time has come
to say goodnight
for every road must end
For ones who care
And always there
Our very special friends
Let's say goodnight
To our sweet luck
How maybe shed a tear
But before we close
Let's think of those
We love who can't be here

Let's raise our hand to absent hands
For every road must end
You'll always be there in our hearts
As special absent friends

As we go down the road of life
Sometimes we race to fast
And as we chase the future ripe
We can't forget the past
So, let us cherish memories
We hold inside our hearts
With those we love
Will always live
Are never to depart

Let's raise our hands to absent hands
For every road must end
You'll always be there in our hearts
As special absent friends

And when its time for us to go
And our long journey ends
We'll never be alone you see

Weâ€™ll be with absent friends

Letâ€™s raise our hand to absent hands
For every road must end
Youâ€™ll always be there in our hearts
As special absent friends

Letâ€™s raise our hand to absent hands
for every road must end
Youâ€™ll always be there in our hearts
As special absent friends

Youâ€™ll always be there in our hearts
As special absent friends
