

# Genetic Engineering

**Paul F. Tompkins**

Efficient, logical, effective, and practical  
Using all resources to the best of our ability  
Changing, designing, adapting our mentalities  
Improving our abilities for a better way of life  
Babies, mother, hospital, [Incomprehensible]  
Creature, judgment, butcher, engineer  
These are the little children, the future in our hands  
When all God's children on this earth inherit all our plans  
These are the lies they tell us but this is the only way  
When all God's children on the earth will evermore be saved  
Babies, mother, hospital, [Incomprehensible]  
Creature, judgment, butcher, engineer  
[Incomprehensible] Babies, mother, hospital, [Incomprehensible]  
Creature, judgment, butcher, engineer  
These are the little children, the future in our hands  
When all God's children on this earth inherit all our plans  
These are the lies they tell us, the future's good as sold  
In all the things we do and know, we really must be told
