

# Good Thing (Skacoustic) - Best Of

## Reel Big Fish

I never felt too good but in this world who would  
I was always thinkin' somethin' wasn't right  
But then you came along and helped me sing a song and  
now I feel ok I hope it can stay- this way You know we've got a good thing goin' and I don't want to see it end  
You know we've got a good thing goin' and I don't want to see it end  
Are these the good days that I've heard so much about-  
there goes the heartbreak that I can live without  
I've been so frustrated, bitter, mean, and jaded  
I've taken for granted all the things I've got  
But now that you are here this anger disappears  
and I feel happy too this is sappy but it's true You know we've got a good thing goin' and I don't want to see it  
end  
You know we've got a good thing goin' and I don't want to see it end  
Are these the good days that I've heard so much about there goes the heartbreak  
that I can live without
