

# balloons

## Settlefish

There's a thing called  
There's this thing called  
We fly balloons on this fuel called  
We fly balloons on this fuel called love  
What's a chkacha?  
What's a fuel called?  
Fairweather storms are in your head  
Fairweather storms are in your head  
We fly balloons on this fuel called love  
We fly balloons on this fuel called love  
We fly balloons on this fuel called  
We fly balloons on this fuel called love  
There's a thing called  
There's a thing called  
There's a thing called  
  
There's a thing called  
There's a thing called  
There's a thing called  
There's a thing called  
There's a thing called  
We fly balloons on this fuel called love  
We fly balloons on this fuel called love  
We fly balloons on this fuel called  
We fly balloons on this fuel called love  
We fly balloons on this fuel called love  
We fly balloons on this fuel called love  
We fly balloons on this fuel called  
We fly balloons on this fuel called love
