Friday Night

Mcfly

Sleeping through the day 'cause I work all night
Get out the way things are coming alive
Look over there, another fight
I guess I should've seen the warning signs
We could be together
(I'm not looking for a fight)
Change the world forever
(Just wanna make it through the night)
Make it all together
(They're really giving me the)
Eye-ey-eye-ey-eye-ey-eye
Think I'm gonna lose it
Lose it, lose it
Think I'm gonna lose it
Lose it, lose it
I think I'm gonna lose it
The walls are growing ears
I'm paranoid
No need to fear what you can't avoid
Don't let 'em in, don't let 'em out
I'll give you something you can scream about
We could be together
(I'm not looking for a fight)
Change the world forever
(Just wanna make it through the night)
Make it all together
(They're really giving me the)
Eye-ey-eye-ey-eye-ey-eye
Think I'm gonna lose it
Lose it, lose it
Think I'm gonna lose it
Think I'm gonna lose it
Lose it, lose it
Think I'm gonna lose it
No, no, no, nothing's wrong with dreaming
Go, go, go, you're dreaming all away
One love, one life, and that's enough
To get you through the night
Tomorrow's gonna be a brighter day

Hey, hey, hey
I think I'm gonna lose it
Lose it, lose it
I think I'm gonna lose it
I think I'm gonna lose it
Lose it, lose it
I think I'm gonna lose it
I think I'm gonna lose it
Lose it, lose it
I think I'm gonna lose it
I think I'm gonna lose it
Lose it, lose it
I think I'm gonna lose it
Lose it, lose it
We could be together
Change the world forever
Make it all together
(They're really giving me the)
Eye
No, no, no, nothing's wrong with dreaming
Go, go, go, you're dreaming all away
One love, one life, and that's enough
To get you through the night
Tomorrow's gonna be a brighter day
Hey, hey, hey
They come alive
When I work the nights
I guess I should've seen
The warning signs
