1000 Xans (feat. Themind)

Mick Jenkins

[Verse 1: Mick Jenkins]
I mean I'm only smoking weed because I'm stressing heavy
All this water in me
I just pray the Lord'll bless my levies
Lessons let me know I shouldn't be so careless
In some circles misconceptions make 'em think my inspiration herbal, it's not
I mean sometimes it is
I mean sometimes I'm tweaking and laughing until I hurt ribs
And sometimes I'm speaking of passion and my purpose
Forever creeping until I'm peaking through valleys and skies
That's the heavens, I mean I'm trying to get high
Some claiming cloud 9, I'm floating around the levies
Rose grown in the alley
No stems for the thorns
Cause buds is from Cali
I'm thinking about it different from y'all
Poker face but I'm thinking appropriation
Whenever I'm approached
With statements about how high I go
I mean the buzz could last a lightyear
And thinking all the time about how they never let you shine
And leave you mine (?)
I played boggle at a young age
So a nigga know words
Met Mary when I got to know her
See we would flirt this on the daily now
Damn near made that girl my lady now
Without a nigga might just go to crazy
How it come to this, uh[Hook: TheMIND]
It's just the motherfucking drugs
I can't shake it, it got me shaken
I feel like I'm breaking everything I've touched
It's just the motherfucking drugs
I can't shake it, it got me shaken
I feel like I'm breaking everything I've touched
[Verse 2: Mick Jenkins]
1000 Xans'll make you sleep good
What you drinking, don't forget you gotta eat good
Cause food is a whole ass drug

I mean Ronald is an old ass plug
And he chopping rocks for cheap to keep your whole ass stuck
And the days is a fucking maze through the smoke screens
I'm amazed how we never gave, blowing smoke rings
For the pain tryna acclimate
Give a fuck bout accolades
Ginger for your shorty, treat the water like a cabernet cheese
At the fact that we see
How they lie to our faces and still we choose to believe
I've been exposed to new spaces, it's getting harder to breathe
The black Neo of this Matrix
Directing homeostasis
But still on my homey's (?)
No pay phones it's getting hard to leave
Tobacco leaves, (?) trees in the breeze these days
Rolling them shits with ease these days
Only thing that put green slime at ease these days
And they still claiming it's the easy way, hey
Only thing that put green slime at ease these days
And they still claiming it's the easy way[Hook: TheMIND]
It's just the motherfucking drugs
I can't shake it, it got me shaken
I feel like I'm breaking everything I've touched[Outro: TheMIND]
I've never been afraid of hugs
I've never been afraid of lugs
I've often got lost in floods drug induced
Fall asleep in mistransition
Everyday I wake up with you
I can barely see the sunshine through
Cause it's motherfucking drugs
