

# If I Knew

## Halloween

Yeah, yeahLoneliness seems like an evil dream  
Reality is life and life is here  
Once my heart was ruled by emptiness  
Harmed because of being too sincereBut now that you've crossed my way  
Could it be we found it againIf I knew that I'm your only one  
I could live and make it through time  
But if, one day you just be gone  
I would know how to ever get by, oh yeahHow can I make you feel secure  
We're both the same I'm king and you are queen  
Understand you make me breathe again  
Tell me all your thoughts and I will seeTake my hand and I'll be there  
Together someday somewhereIf I knew that I'm your only one  
I could live and make it through time  
But if one day you just be gone  
I would know how to ever get by  
I would know how to ever get byIf I knew that I'm your only one  
I could live and make it through time  
But if one day you just be gone  
I would know how to ever get by  
I would know how to ever get byI would know how to ever get by  
I would sit there break down and cry
