

# Jeg er guden, I er tjenerne

## Myrkur

We hold who we are  
We carry the weight of the storm  
And we hope to be whole  
Buried where memories are born We don't stop,  
We don't stop for no one!  
We won't break, the world won't wait for you! We don't stop,  
We don't stop for no one!  
We won't break, the world won't wait for you! We hold who we are  
We carry the weight of the storm  
We were born to be Gods  
Chasing the light that we are We don't stop,  
We don't stop for no one!  
We won't break, the world won't wait for you!  
We don't stop,  
We don't stop for no one!  
We won't break, the world won't wait for you!
