Blood Machine

Brocas Helm

I will have my way with you,
And you can drive my blood machine,
My blood machine,
My blood machineYou can't have all my love,
You can't have all my love,
You can't have all my love,
But you can have me for tonightI will swallow everything,
And you can drive my blood machine,
My blood machine,
My blood machineYou can't have all my love,
You can't have all my love,
You can't have all my love,
But you can have meYou can't have all my love,
You can't have all my love,
You can't have all my love,
But you can have me for tonightYou can't have all my love,
You can't have all my love,
You can't have all my love,
But you can have meYou can't have all my love,
You can't have all my love,
You can't have all my love,
But you can have me
