

# Let Go

## Flesh for Lulu

If you really wanna know  
What makes me get up and go  
I'll give it to you straight  
If youve got time to wait  
Cos im really kinda lazy  
And lately things gone crazy And you know sometimes you feel like you just gotta...  
Gotta let go  
Let go let go  
Gotta let go  
Let go  
Gotta let go  
Let go let go  
Gotta let go I know ive asked you this several times before  
And you always end up throwing me out the door  
You say if you wanna stay  
Then you better pray  
Cos im feeling kinda funny  
Dont like being stuck with no money  
And i feel like i just gotta let go  
Gotta let go  
Just gotta let go  
Gotta let go  
Let go let go  
Gotta let go  
Let go And by the light in your eyes  
I can see that youve been telling lies for a while  
I know it seemed to go OK  
Yhen i asked to stay you just run away  
Then You just run away  
Oh my my run away  
Probably found out by now  
That im fifty five thousand miles away  
And it would have been worthwhile  
For just one of your smiles
