Stoned

Enuff Z'Nuff

High
HighWorlds of thoughts, an endless space
Sometimes even underground
Helpless in the human race
And hopeless when the sun goes downIf you give me a load, if you give me it all
I promise, the world I can make it
One thing I know, if you leave me alone
I'm stonedHighAll around, temptation calling to me
Calls me by my name
Darling tasting your sweet apples
More temptating than cocaineIf you give me a load, if you give me it all
I promise, the world I can make it
One thing I know, if you leave me alone
I'm stonedPeople all around me seem to bluff
To get me on the thing
Hope, my darling, you could save
Take me home, I'll be a kingIf you give me a load, if you give me it all
I promise, the world I can make it
The one thing I know, if you leave me alone
I'm stonedIf you give me a load, if you give me it all
I promise, the world I can make it
The one thing I know, if you leave me alone
I'm stonedStoned
