

# Stoned

## Enuff Z'Nuff

High  
High Worlds of thoughts, an endless space  
Sometimes even underground  
Helpless in the human race  
And hopeless when the sun goes down If you give me a load, if you give me it all  
I promise, the world I can make it  
One thing I know, if you leave me alone  
I'm stoned High All around, temptation calling to me  
Calls me by my name  
Darling tasting your sweet apples  
More temptating than cocaine If you give me a load, if you give me it all  
I promise, the world I can make it  
One thing I know, if you leave me alone  
I'm stoned People all around me seem to bluff  
To get me on the thing  
Hope, my darling, you could save  
Take me home, I'll be a king If you give me a load, if you give me it all  
I promise, the world I can make it  
The one thing I know, if you leave me alone  
I'm stoned If you give me a load, if you give me it all  
I promise, the world I can make it  
The one thing I know, if you leave me alone  
I'm stoned Stoned  
Stoned High
