

# All Over The Nations

## Halloween

I keep wondering all these days  
How to thrive the way we stray  
A year, a lifetime parted, together  
Will be all the same Many things to make me sad  
Some can even drive me mad  
Just fear forever, no more endeavors  
Leave me where I stand You are here and make me feel so high  
Day by day, something one can't deny  
Let's give each other certainty All over the nations the tunes come alive  
Winners and losers, we're all alike  
No matter as truth ain't some great mystery  
We all fade into one Don't you feel too hypnotized  
Or keep your future jeopardized  
So what's accomplished crying for nothing?  
Skip depression now Come, arise and take me higher  
No more lies and every soul can see  
We're incarnate sincerity All over the nations the tunes come alive  
Winners and losers, we're all alike  
No matter as truth ain't some great mystery  
We all fade into one All over the nations the tunes come alive  
Winners and losers, we're all alike  
No matter as truth ain't some great mystery  
We all fade into one
