

Run

Rex Goudie

We're just two people
Riding a circle
That's spinning around
Just everyday people
Searching for something
We've already found And I'm just a guy
Who's in love with a girl
Not in front of me
Now your so far away
And I need you right here in my arms [Chorus:]
Baby just run
Take a bus, take a plane
Take a train
Baby just run
Run as fast as you can
Girl you find your way back
'Cause no matter where you are
There's nowhere on this earth that's to far
So baby just run We're just two people
Wishing we were together tonight
Just everyday people
Trying to make sense of this puzzle called life And I'm just a guy
Who's in love with girl
Not in front of me
Now you're so far away
And I need you right here in my arms [Chorus:] Sooner or later it's over
Passing you by and it's gone
There is not enough time to wonder
If you're where you belong
