

# Scenes From a Night's Dream

## Genesis

Little Nemo rubbed his eyes and got out of bed  
Trying hard to piece together a broken dream  
His visions lifelike and full of imagination  
It's strange to think they came from such a tiny head  
Dragons breathing fire, but friendly  
Mushrooms tall as houses  
Giant nymphs and goblins playing  
Scenes from a night's dream, poor little Nemo  
Eating all kinds of food so close to bedtime  
They always made him have these nightmares, it seemed  
Helped young Washington in the garden  
Cut the cherry tree down  
Now we all know that's not history  
Scenes from a night's dream, poor little Nemo  
Nemo, get out of bed  
Don't tell me stories, I don't want to know  
Come on you sleepy head, we're waiting to go  
Once he went to the 'Carnival of Nations'  
Dancing with the princess through the night  
Found themselves on a moving platform  
Ten ton weights above them  
Seeking audience with King Morpheus  
Scenes from a night's dream, poor little Nemo  
Nemo, get out of bed  
Don't tell me stories, I don't want to know  
Come on you sleepy head, we're waiting to go
