

Again

Anni B Sweet

You've got so many stories to tell
You said that I'm, I'm the only one and very well to me
And I feel safe and warm, in your arms againYou go away and my heart drops into
A hole of pain, a hole of pain
I want you are my love my darling,
My only one I knowTake me to a world where nothing hurts
Where I can be by myself
With your sweet arms again
Melt me in your arms, in your body
Where I can be by myself
With your so sweet love again
The way you hold me last night
The way you awoke in the morning by my side
The way you looked at me
There's no need for words babe
There's no need to speak
So... Take me to a world where nothing hurts
Where I can be by myself
With your sweet arms again
Melt me in your arms, in your body
Where I can be by myself
With your so sweet love, sweet love, love love...
Again!
