

# For Elise

## Saint Motel

When it's tough  
When you get stuck  
You're at the wall  
[?] park  
You need a spark  
A light in the dark  
To get you out of your head  
And into your heart Taking a walk in the wild tide  
Something in the way she moves  
Candle in the wind  
And it's blowing everywhere we go  
All these girls got something going on  
Oo-ooo-oooh  
At the club her name was Lola  
Champagne tasting Coca-Cola  
In the hands of my loving  
My love does her good  
All us boys need something, that they got [Chorus]  
This one's for Elise  
Norma Jean, Pattie Boyd and Carol Keefe, Holly Woodlawn, Linda Eastman, Candy Darling got it started with  
a song [Hook]  
Oooh  
This one's for Elise  
Oooh The muses of the Greeks and Romans  
[?]  
They all lit a spark and you know that they got it going  
Shout out to the girl, over there, in my chair: [Chorus]  
Whoa Elise, Norma Jean, Pattie Boyd and Carol Keefe, Holly Woodlawn, Linda Eastman, Candy Darling got it  
started with a song [Hook]  
Oooh
