Hummingbird

Cyra Morgan

He walks on wings
Does marvellous things
Drinks nectar sweet
Lives life so complete

And he hovers by
And catches my eye
And backward he flies
Hummingbird, hummingbird

It's only impossible until it's not
So if you believe then its all that you've got
Don't stop, with all your heart
Walk on wings

They say, stay close to the ground
Keep your head from the clouds
Tell you life isn't fair
Leave you naked and scared

When I reach my edge
I hear a low hum
And know that he's come
Hummingbird, hummingbird

It's only impossible until it's not
And if you believe then its all that you've got
Don't stop, tell you that you'll never fly
But how will you know if you never try
Appeal to your practical side,
Break out of those chains, let go of that pride
And take to the sky
Hummingbird, hummingbird

It's only impossible until it's not
So if you believe then its all that you've got
Don't stop, with all your heart
Walk on wings

Walk on wings

Do marvellous things
