Many Will Learn

Embrace

Many would learn and many would hurt
And many would chase you away
And many would fear but I'm not here
To run when things go astrayAnd many would learn and many would turn
And many would run for their lives
But I'm not them, I'll dig in
I'll always be there by your sideAway way downOne day my heart will leap
And I will dance for joy
And not reach for the phone
The pills or the tapeCause you're as honest as a car wreck
And sirens never love
They just sing and lure your swimming soul away
Down with your mistakesAway way downBy twist of fate an hour too late
I come to my senses again
But you're not here just cold
And near you left just as living made sense
