Steady Ride (Gun Metal Green)

Trocadero

Gun metal green
Prettiest that I've seen
I've nothing to hide
And you've nothing to hideI'd trust you at the wheel,
Even if we're going down
Our love is made of steel
Last us til the underground
Steady and surreal,
In a world of lost and foundTook out the trash
Paid my bills all in cash
Nothing to hide
And it's summer outsideI'd trust you at the wheel,
Even if we're going down
Our love is made of steel
Last us til the underground
Steady and surreal,
In a world of lost and found
Trust you at the wheel,
Know you'll keep us safe and soundI'd trust you at the wheel,
Even if we're going down
Our love is made of steel
Last us til the underground
Steady and surreal,
In a world of lost and found
Steady and surreal, in a world of lost and foundWe don't need a key
We were already free
Cruising along
To a mexican song
