

# Like A Star

**Britt Nicole**

Been workin' overtime  
And gettin' sick of these crazy games  
I'll be a satellite  
And wait for someone to enter my gaze  
I see you like a star in the sky  
And I love it, yeah, the light in your eyes  
And I wonder when you're lookin' in mine  
Do you see them like a star in the sky  
You got me fallin' for ya  
And I won't stop 'til I hit the clouds  
See I don't wanna hide these feelin's  
Or even try to figure them out  
Sparks flyin' all around, electricity  
Dance with me, dance with me  
Ten feet off the ground, no gravity  
Fly with me, fly with me  
I see you like a star in the sky  
And I love it, yeah, the light in your eyes  
And I wonder when you're lookin' in mine  
Do you see them like a star in the sky  
I see you like a star in the sky  
And I love it, yeah, the light in your eyes  
And I wonder when you're lookin' in mine  
Do you see them like a star in the sky  
Way up high, satellite, yeah  
You and I identify  
I see you like a star in the sky  
And I love it, yeah, the light in your eyes  
And I wonder when you're lookin' in mine  
Do you see them like a star in the sky  
I see you like a star in the sky  
And I love it, yeah, the light in your eyes  
And I wonder when you're lookin' in mine  
Do you see them like a star in the sky  
I see you like a star in the sky  
And I love it, yeah, the light in your eyes  
And I wonder when you're lookin' in mine  
Do you see them like a star in the sky  
Sparks flyin' all around, electricity

Dance with me, dance with me  
Ten feet off the ground, no gravity  
Fly with me, fly with me
