

# Resonance (Soul Eater First Opening)

## NateWantsToBattle

Two become one our soul's have been connected  
A bond that's stronger than words  
And now in sync we scream our fates will come together  
And it will not go unheard Locking eyes becoming intertwined  
You'll be sharing your fate with mine Side by side we'll battle through the night  
And soon enough we'll find our way When the sun has set, we'll battle through nightmares  
We won't give up  
I will stay by your side as we slip into madness  
Two become one our soul's have been connected  
A bond that's stronger than words  
And now in sync we scream our fates will come together  
And it will not go unheard  
I could care less where it is you came from  
Beause we see what's waiting ahead I knew from the first time that we became connected  
I'll be with you till the end
