

Nobody Does It Better

Mint Condition

I'm not the one who goes for my own pleasure
And then just brush you aside
I'm here to please and lead on your expectations
Ultimately satisfied You trigger my affections
To mirror your sensations
And I promise you I'll do you so right
You know that If you don't feel good, then I don't feel good
Don't you know I love you so crazy?
If you're not ticking, then I'm not tocking
Nobody does it better than me Now that you've had a little taste of my flavor
You've found you've deeply touched my soul
See when you learn and understand each other
You get a simple unconditional flow Nobody can stimulate
Excite the way
Blend the way you do
Girl I'm gonna gratify you If you don't feel good, then I don't feel good
Don't you know I love you so crazy?
If you're not ticking, then I'm not tocking
Nobody does it better than me If you don't feel good, then I don't feel good
Nobody does it better than me We're like a weeble wobble and we don't fall down
Sugar, you excite me, you know you stimulate me
Our love will never fade you just see
We're like a weeble wobble and we don't fall down
Down, down, down, down If you don't feel good, then I don't feel good
Don't you know I love you so crazy?
If you're not ticking, then I'm not tocking
Nobody does it better than me If you don't feel good, then I don't feel good
Don't you know I love you so crazy?
If you're not ticking, then I'm not tocking
Nobody does it better than me If you don't feel good, then I don't feel good
Don't you know I love you so crazy?
Don't you know I love you so crazy?
Don't you know I love you so crazy?
Nobody does it better than me We're like a weeble wobble and we don't fall down
We're like a weeble wobble and we don't fall down
We're like a weeble wobble and we don't fall down
We're like a weeble wobble and we don't fall down
Down, down, down, down You don't feel, then I don't feel good
If you not ticking, well then I'm not tocking

If you not into, then I got a bad tone
'Cause if you wait for a fucker, then I become a mother fuck
Don't you know I love you so crazy?
Don't you know I love you so crazy?
So crazy, nobody does it better than me
