

# Messin' With Me (Dirty Mittz Remix)

## Darling Parade

Sometimes the truth is hard to swallow  
But you could choke to death on your pride  
Did you think you might be the reason  
Can you go to bed with your lies  
[Chorus]

You should know that you're fighting for nothing  
When deep down you're just looking for something  
You keep giving up the third degree  
But you don't stand a chance if you're messin' with me  
All this time you've been givin' the run around  
Spreading it around  
It's running you out of town  
You keep giving up the third degree  
Well you don't stand a chance if you're messin' with me  
You're playing king in your ivory tower  
It doesn't matter what happens to us  
Well if this is your best then you've got what you wanted  
You can take what's left and have fun by yourself  
[Chorus]

You should know that you're fighting for nothing  
But you don't stand a chance if you're messin' with me  
All this time you've been givin' the run around  
Spreading it around  
It's running you out of town  
You keep giving up the third degree  
Well you don't stand a chance if you're messin' with me  
So long, just so long  
To everyone that you've wronged  
Cause it's not gonna work  
No it never works on me, or on anyone  
[Chorus]

You should know that you're fighting for nothing  
When deep down you're just looking for something  
You keep giving up the third degree  
But you don't stand a chance if you're messin' with me  
All this time you've been givin' the run around  
Spreading it around  
It's running you out of town  
You keep giving up the third degree

Well you don t stand a chance if you re messin with me.
