

# Sugar

## Editors

Don't leave, don't leave  
I want you to realize when I'm gone  
My my, my my  
You are the only thing I want to own There's sugar on your nuts  
You're like no one I know  
You're the life of another world You swallow the hole  
With just a mumbled what are those  
And it breaks my heart to love you, it breaks my heart to love you Don't leave, don't leave  
When you're lost in the moment, I am home  
I tried, I tried  
To make you realize when I'm gone, gone, gone There's sugar on your nuts  
You're like no one I know,  
You're the life of another world You swallow the hole  
With just a mumbled what are those  
And it breaks my heart to love you, it breaks my heart to love you It breaks my heart to love you There's sugar on  
your nuts  
There's sugar on your nuts There's sugar on your nuts  
You're like no one I know,  
You're the life of another world You swallow me whole  
With just a mumbled hello  
And it breaks my heart to love you, it breaks my heart to love you Don't care, don't care  
I don't want you to realize when I'm gone
