Soulshaker

Ill Skillz

It's long after midnight
You're lying awake in bed
You thought it was easy
To ignore what was said
Your everything changes and
Your mind's in the redThere stands a man with eyes of fire
Looking through your heart's desire
Sayin' leave the world you know behind
It's gonna blow your mindSoul shaker, soul shaker
Fire in your brain
Drivin' you insane
Soul shaker, heart breaker
It's gonna bring you to your knees
Satisfaction guaranteed
Tonight, tonightSo free your mind
The rhythm, it feels so right
Your eyes were burnin' from the first rays of light
The soul shaker's comin' and it's your turn tonightDon't bite the hand that lights the fuse
The time has come for you to choose
Turn or burn, black or white
You know it feels so rightSoul shaker, soul shaker
Fire in your brain
Drivin' you insane
Soul shaker, heart breaker
Gonna bring you to your knees
Satisfaction guaranteed
Tonight, tonightTechnicoloured smoke screen visions clouding up your mind
Trying to remind you of the world you've left behind
Soul shaker, heart breaker
Gonna bring you to your knees
Soul shaker, heart breaker
Satisfaction guaranteed
Soul shaker, heart breaker
Yeah, you got me on my knees
Soul shaker, heart breaker
Yeah, you got me on my kneesSoul shaker, heart breaker
Gonna bring you to your knees
Satisfaction guaranteed
