

I've Seen Him Work

Anita Wilson

Sometimes you wonder why
The troubles of life seem to weigh you down
well I found a friend that I highly recommend
He will stick closer than a brother
And will love you like no other Even though what you see
Doesn't match what you believe
Hold on, wait and see
Remember that God is working it out Formed the mountains
And the wind
Told the heavens where to begin Everything that you're going through
Don't let it worry you
God is working it out Everything that you're going through
Don't you let it worry you
Vamp: I've seen Him work
Gave me peace in a raging storm,
everything I need and more
Allow me to encourage you
To get ready for your Breakthrough
I've seen Him work
You've waited a longtime
To see all your prayers, hope and Dreams
Become reality well let me encourage you
You do what you do
And just let God do the rest
It's a decision you won't regret
Eventhough...
Everything that you're going
Through, Don't you let it worry you
I've seen Him work
Gave me peace...
Please allow me to encourage
You, to get ready for your breakthrough
All: Grab a hold and don't let go
He's in control
I've seen him work/4x
Because I've seen Him work
I've seen him work... till fade
